

# The New Role of Business in Global Education

**The Shared Value Initiative and FSG are working with corporate and global education leaders to define a new role for business in education - one that leverages the power of business to improve educational outcomes worldwide.**

[HOME](#) » THE NEW ROLE OF BUSINESS IN GLOBAL EDUCATION

Learn how companies and their partners can work together to transform education while driving shareholder returns:

This report, [The New Role of Business in Global Education](#), explores the innovative ways that leading companies are putting education at the core of their corporate strategy. Our findings, based on interviews with more than 50 global business and civil society leaders, highlight how companies across industries and geographies are creating shared value by filling unmet educational needs, improving student outcomes, and overcoming workforce constraints in ways that bring economic benefits back to the company.
